

## **Feedback Session – May 7th**

On May 7<sup>th</sup> about 30 representatives drawn from parish and school families met at Tom and Amber Allen's home to meet our Architect, Mr. Bruce Williams, and to review initial conceptual design work on our parish worship space.

The meeting was designed to accomplish several objectives: review the strategic planning processes of parish and school; solicit feedback on church initial conceptual design; meet Bruce and get a “feel” for his creativity; understand the “conceptual design process;” outline the next steps between now and a late fall “town hall” meeting; and lay out the financial support needed in order to make it through the conceptual design process, “town hall” meeting, feasibility study and capital campaign.

A copy of the Power Point presentation is included.

There will be at least two additional meetings such as this one in order to receive useful feedback and solicit the funding necessary to move forward.
